# Ruta Block 1

Baseline precision strike system for high-value targets in permissive environments

---

Rapid launch of multiple missiles

Saturation of enemy air defence

Operates in GNSS-denied environment

<b>MODEL</b>	Destinus Ruta Block 1
<b>RANGE</b>	300+ km
<b>PAYLOAD</b>	150 kg
<b>COUNTER</b>	<ul style="list-style-type: none"><li>• Strategic assets</li><li>• Concrete structures</li><li>• Critical infrastructure</li></ul>
<b>APPLICATIONS</b>	<ul style="list-style-type: none"><li>• Strike on stationary targets</li><li>• Infrastructure degradation</li><li>• Critical asset neutralization</li><li>• Target drone</li></ul>

Designed for precision strike against high-value targets, RUTA Block 1 enables low-altitude terrain-following penetration in GNSS-denied environments using pre-programmed targeting.
